

Trade and Socioeconomic Statistics

“Convenient Access to Official China and Hong Kong Statistics”

Up-to-date and accurate statistical data are essential for organizations to capture the best opportunities in a dynamic market.

Sourced from local governmental authorities, Experian’s Trade and Socioeconomic Statistics cover major social and economic figures ranging from price index, merchandise trade, shipping, population, labour, to banking, foreign capital and investment in the region.

Products:

Experian delivers timely statistics in a user-friendly manner to support business decisions:

Monthly Statistics Online (China / HK)

China Monthly Statistics Online covers monthly and annual figures on key economic indicators including agriculture, industry, transportation, foreign trade, price, household survey, wage etc. Data at provincial and city level are available.

Hong Kong Monthly Statistics Online also provides monthly updates on population, external trade, foreign capital, production, price, labour, housing, land and commerce etc. Data is available as 10-year time series.

External Merchandise Trade (HK)

Hong Kong External Merchandise Trade is a monthly publication of key import and export figures. It covers all commodities (in Harmonized System or Standard Industry Trade Codes) for analysis by trade type, origin, transport mode or destination etc. Data is delivered with a software tool for easy query and reporting.

Trade figures of the past 24 months are available for trend analysis and cross-country comparison.

Hong Kong Shipping Statistics

Hong Kong Shipping Statistics covers all cargo / laden container statistical details for the shipping industry. Quarterly updated, the data includes cargo throughput, cargo type, commodity, territory/ origin, transport mode, and transshipment to China etc.

Collection of Statistics on China Economy and Social Development

This annual publication covers the essence of the most up-to-date statistics of China, its 31 provinces, as well as municipalities, autonomous regions and major cities. Key figures include GDP, banking, population, transportation, telecom, domestic and foreign trade, and industries etc.

Benefits:

Experian’s Trade and Socioeconomic Statistics offer a range of benefits for better understanding of the China/ Hong Kong environment:

Convenient Access

Quick access to a comprehensive collection of up-to-date statistical figures to ensure the most relevant, current and credible data possible for understanding domestic and international market.

User-friendliness

Figures are displayed electronically for both English and Chinese version. User interface and tools are specially developed for customized data search. Data can be saved and printed in plain text or MS Excel format for future analysis.

Authoritative Sources

The official statistical data is directly sourced from the National Statistical Bureau in China, and the Census and Statistics department in Hong Kong.

Cost-Effectiveness

Subscribers can choose to pay on a monthly or annual basis according to their information need, saving the time and cost in search of data and dealing with government bodies.
